

THE DNA OF DESTINY

DISCUSSION GUIDE

LESSON 5 A PLACE CALLED THERE

Today, you have made a destiny-defining decision. If you have chosen to not only listen—but to also study—this message, your life will never be the same!

Pay careful attention to how God will use the unknown to move you into the known that He has for you. Sometimes, God must disrupt your familiar patterns to reset your operating system—all for the purpose of moving you into a better version of yourself.

Don't get overfamiliar with your life strategies, or allow your present circumstances to sabotage your future potential. Your destiny is always unfolding. Even now, as you journey through these uncertain times, God will use them to bring the best out of you.

“It is your destiny to be blessed.”
